JanuaryForum2008

PARKING OBSERVATIONS made by Denis Pipon, absent from the Island, but returning 20 February 2008, and, PRESENTED by Jeremy Mallison with a copy to the FORUM/WORKSHOP Chairman Mr Maurice Dubras.

These observations are far from complete for they cover principally the period November 2006 to end of April 2007, one observation in June 2007, three in December 2007 and finally 7 observations in January 2008.

The author of the observations was away from the Island for 8/9 weeks from June 2007; 4 weeks in Uganda, three/4 weeks in Switzerland and one week in London. Despondency (or other reason/s) may have set in,in mid 2007, for the observer personally has from time to time attended a number of these so-called seminars/forums where the individual has come away from the forum knowing that the organisers have taken not the slightest interest in his contribution, those organisers having clearly predestined the outcome of the meeting. The author vows to return to St Aubin to complete the observations.

These observations, however, do challenge the case argued by Deputy Ferguson in her Report to her Proposition P113/2006, lodged 21 September 2006 ST.AUBIN ; PROPOSED LAND RECLAMATION AND IMPROVEMENTS-IMPACT ASSESSMENT at paragraph 3 in particular "The cent re of St Aubin is choked with cars at all times of the day", and at paragraph 1 line 1 "overwhelmed by the car".

Paragraph 4 of the Report is somewhat uncomfortable "an opportunity to create a transport hub" I do believe we should ask Deputy Ferguson to withdraw her Proposition. 16. 10. 2008
